

2024 Family Survey

Results

Our vision: A world where children with special needs are included and empowered through play.

Our mission: To facilitate the inclusion of children with disabilities into family, school, and community life by providing accessible play, adaptive toys and technology, information, and resources.

Lekotek of Georgia conducts an annual survey to ensure that we are providing high-quality valuable services for children with disabilities and meeting the needs of their families.

We are proud of the results shown below, but more importantly of our Lekotek graduates who today are attending colleges and/or working in their communities. This is Lekotek’s true measure of success.

Indicator	Result
Percent of families who play together more often.	100%
Percent of families who provide their child developmentally appropriate toys at home.	99%
Percent of parents who have acquired new skills that help their child learn through play.	94%
Percent of families who have increased working knowledge of adapted toys, software, and technology.	91%
Percent of children who have shown increased skills, including cause and effect, problem solving, social, language, motor or academic skills.	97%
Percent of children who have increased self-esteem.	95%
Percent of families who have more information and knowledge of community resources.	99%
Percent of families who feel more comfortable participating in community activities with their child.	99%
Percent of families who feel more connected to their community.	96%

Comments:

Lekotek has been wonderful for our son. He has gained fine motor skills and strength and has learned some educational skills because of having different toys to play with each month. It helps us understand the kinds of toys to purchase for him. We also love the events Lekotek hosts for the special needs community. It encourages participation in events most of the special needs children may not otherwise be able to participate in.

Lekotek has been part of our family for over 10 years. Every season has been met with acceptance and assistance to better my daughter's life.

Lekotek is both an outlet for him and an educational opportunity for me.

They have shown up and stood on every word they have said and more from day one! The way they use play to help create a learning and inclusive environment for the whole family but especially my little one is impeccable! We've been very fortunate to have found Lekotek and our leader in more ways than one!

Lekotek provides an inclusive environment where we can meet and interact with other families. The toys that are provided helps reinforce new emerging skills.

With Lekotek, our daughter can interact with toys in a way that works for her. She can relax and wind down or play and have fun just like you and I can because she has the appropriate toys.

Our leader is very knowledgeable, kind, & patient. She is always enthusiastic to see us & motivates us to try new toys. She inspires my boys & even goes out of her way to get toys from different locations. She pays attention to details on what my boys are into and listens. She allows proper response time from my nonverbal boys & is very compassionate. Each time we see her, I can see the growth in their computer skills with the adaptive mouse & their attention to the tasks presented

Lekotek has over exceeded our expectations because of all the benefits that come with it. The type technology that they have is amazing and is helping with early childhood development in my child.

I love how they have events that my son can be apart of and in a community where others can understand. I love the different toys and hour to explore what my son loves
